My Topic: Cats 🐱

1. **Persuade:** Meww... seriously, who can resist that adorable face and loving attitude? They are cute, fluffy creatures and they clean themselves, which is an awesome bonus! They come in different varieties of size and colour, perfect for anyone!
2. **Inform:** A cat is a small, typically furry, carnivorous mammal. There are more than 500 million domestic cats in the world, with around 40 recognised breeds and the first cat in space was called Felicette! When a family cat died in Egypt, family members would shave off their eyebrows.
3. **Entertain:** The tiny Scottish Fold, (secretly a spy) broke into the building and set off to take the secret files. Just as it was going to grab it, one of the burly guards saw the cat. “Hey! Come back here! Stop!” He yelled. The cat suddenly stopped and stared intensely at the guard, enveloping him with cuteness overload. “Awww!” The guard exclaimed, too distracted by the adorableness to even notice that the cat, now driving off in her catmobile, had left with the same files he was supposed to guard. Oh well.
