

SPIRIT STATUE

HAVE YOU EVER WONDERED what's deep deep in the forest behind all the trees, beneath all the water falls, well on one side of the forest there is a Fantasy Forest where there's mermaids, elves and fairies and on the other side there's a Mid-Night Forest, where it's dark, misty and has black and dark purple leaves, I know all of this because I've been there before. It all started...

On one cold Winter night in London I was at home all by my self, my Mum was at the market to get food for dinner. Six-Teen years of my life I always believed there was something behind all those trees behind my house, this is when my life changed.

That night I went to pick fresh berries from the forest behind my house, I might have gone to far. I saw some light under the leaves in the distance I thought it was a pot of gold or a magical jewel you'd find in a fairytale. I looked under the leaves it looked like a hole that never ends but it was a portal!

I had to go in, I didn't know what to do if I go home I have nobody to tell and even if I could tell somebody they wouldn't believe me anyway. So I did it, I jumped in and all I felt was me sinking into an ocean that would end up somewhere far far away. All I felt was my heart drop all the way down to my feet, still beating and my dark brown hair in my face it covered my bright blue eyes, I couldn't see anything and all the sudden it became darker and darker every second, then it was black, I blacked out.

After I blacked out I felt as if I was lying on a cloud I thought I had died after I backed out suddenly I opened my eyes and I was on a bed like cloud. I thought I was seeing things I saw mermaids, fairies and elves?the sky was bright blue the trees were bright orange, red and yellow, it had mushroom like houses and glittering water were the mermaids were in. Then a person came up to me I thought it was my Mum but it was floating!

"Hello, I'm Tila the nymph of fantasy forest I sent you here to help us" she said. She looked really magical, she had blue and purple colourful hair and a beautiful blue dress and if you look closely into her eyes you can see a galaxy in her eyes. She didn't have wings but she could fly. "Um...I..I... I'm L...Liya, wait before I tell you anything. Where am I!?" I said in shock.

“There is a problem” she said, but before she could finish. She said “There coming!” “Wait what, Who’s coming” I said still in shock. She pulled my of the cloud like bed and everybody hid into there mushroom like houses it was as if they had rehearsed the drill hundreds of times. She dragged me behind a tree and made sure they didn’t see us. And all I saw was a clan of black figures came and surround the cloud like bed and then ran the same way they came from. “I asked ‘why are they here and why did they leave the same way they came.’” “Stop asking questions, just follow me into this passage way to my house’ Tila whispered.

We arrived she got a hot drink from the table as if she new I would be there, she brought me to her lounge room and started answering the questions I asked. “they sensed there was somebody new coming to our land a that is why you are here I want you to fix the invisible wall between the Mid-night forest and the fantasy Forest, the Mid-night forest is a kingdom of Darcy the Queen of the minions. See she use to be my sister but she was jealous because I was born first and I got the throne of the Fantasy Forest so she started her own Kingdom that she wants to rule. “she explained “So you want me to fix the MAGICAL wall, but I don’t have any magic.”

“yes, because you don’t have any magical powers so you can go in to the magical portal to save he spirit statue as well as us.”

I had to do even if it means risking my life I don’t know why I just felt like I had to do it. “So all I have to do is jump in a portal and grab a crystal right out side of the portal, well that sounds easy’ I said nervously.

So Tila put me into a black and dark purple out fit to disguise my true identity, I jumped into the portal but this time I didn’t black out and fell behind a tree I looked in front of the tree and I saw black figures working and a big black throne and a person. “that must be her sister” I mumbled to myself. “excuse me” a deep voice said behind me, I froze it was silent. I said “um... nothing everything is totally fine. “I went towards the thrown but not to close so they cant smell men then I saw the crystals in the distance on a rock so I speed walked to them with my head down so nobody sees me, I grabbed them and went back behind the the tree, Tila must of heard my or something but she brought me back, I was pretty use to portal travelling, ended up with my normal cloths I came in I gave her the crystals and said ‘here have the crystals, I just want to get out of here and go back home”

Tila put the crystals into the spirit statue all I heard was...juuuu...juuu. And I blacked out again now this time I felt like I was sleeping and I was. I was on my bed sleeping like a baby and when I woke up I saw a note saying...

Dear Liya,

The fantasy Forest is really thankful for risking your life to save our life and we just wanted to tell you that the magical wall is fixed and my sister and her minions are long gone and we just wanted to give you a thankyou gift.

The note was connected to a little bag it had a crystal in it and carved on it was *you will always be in our heart.*

I heard my mum come through the door and hugged her and she said "what Is this for" and I said "I just missed you?" And this is how I saved a part of a world that would never be found.
